First Sprint - Retrospective

The decisions made in the retrospective of this Sprint are:

Stop:

- Leave the documentation for the last moment.

Less of:

- Update trello more often.
- Stop wasting time in the meetings

Keep doing:

- Make the code fast, to have plenty of time if something goes wrong.
- 2-3 weekly meetings to report on how the project is going.
- Reach agreements easily
- Good integration of the different parts of the project

More of (things to do more):

- Further comment on the code so that all members clearly understand the purpose of each code snippet

Getting Started (things to start doing)

- Encourage meetings and communication
